oxyynea®

What is Oxyynea® ?

Oxyynea® is an antioxidant powder of fruits and vegetables standardised in ORAC value. Since most consumers do not eat 5-9 servings of fruits and vegetables a day, **Oxyynea®** can provide additional ORAC units in a very concentrated form.

▶ 1 g of Oxyynea® provide 5000 ORAC value

Fruits & vegetables ORAC intake

ORAC recommended daily value for fruits & vegetables was calculated in collaboration with an external laboratory (LAREAL, 2005, FRANCE).

Oxyynea® efficacy

The benefits of **Oxyynea®** have been evaluated in vivo (animals) study during 12 weeks on the Laboratory of Health Nutrition of Montpellier (France) and supervised by Pr J.M. Rouanet. The results shown that **Oxyynea®**:

- decreased free radicals up to 27%
- decreased NADPH oxidase up to 45%
- decreased total cholesterol up to 15%
- decreased total cholesterol / HDL up to 13%
